JULY 2024

Awakening is a continuous journey of discovery, growth, and enlightenment. Awakening is the freedom that comes from realizing our inner potential—personal, intellectual, emotional, spiritual, and social.

We are committed to fostering holistic awakening in our institutions, encouraging curiosity, nurturing talents, and vigorously pursuing dreams. For students, awakening means recognizing their unique strengths and interests, exploring new subjects, engaging in extracurricular activities, and challenging themselves to achieve new dreams.

As we embrace holistic growth, let us strengthen our belief in the power of an open mind and a willing spirit. In learning, personal growth, or community engagement, awakening unlocks boundless possibilities and transformative experiences. Together, let us awaken to the limitless potential within each one of us.

VALUE OF THE MONTH : AWAKENING !!

Machilakath Abdul Rahim, an Indian from Kerala had spent 18 years in Saudi prison. In a rare show of benevolence and solidarity, Hindus, Christians and Muslims came together to raise Rs 34 crore needed to secure Rahim's release from prison and send him back home. It was an apt Eid-Vishu gift, as the holy month of Ramadan coincided with Vishu, a Hindu festival celebrating Malayalam new year. **Hands raised in prayer for saving life of an Indian** shows the power of unity and compassion. Rahim's mother, Fathima, who has not seen him since the day he left in 2006 is waiting with bated breath for her son's homecoming.
